

LUIS FIRPO KNOCKS OUT JACK McAULIFFE 2ND

Argentine's giant hummed as a possible contender for Jack Dempsey's world heavyweight crown when he scored a knockout in the third round of his battle with Jack McAuliffe, 2nd, of Detroit, of the new Yankee stadium. New York Luis Firpo dropped his opponent with two right uppercuts. Picture shows McAuliffe flat on his face in the middle of the ring, with the bulky South American towering over him, the referee declaring Firpo a winner as 6,000 spectators cheered.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes
—Most Women Can Have

Says Dr. Edwards, a Well-Known
Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and unusable matter in one system.

If you have a pale face, yellow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit. 15c and 30c.

CURRENT COMMENT.

That poetic stuff about winter "lingering in the lap of spring" has something more than usual in it this season. True there have been days warm enough, even if not enough warm days; but the misfortune is that after a day or two of warmth provocative of verdure, there come others with sleet and snow and with morning frosts abundant. Under such circumstances it is no wonder that May, always stately and capricious, is this year unusually disappointing.

But if few gardens have been planted and many people are reluctant to get seeds into the ground, there is at least one bit of compensation. The cooler nights and mornings, and the occasional cool all-days, have retarded the budding and blossoming of trees and for this reason there is only an occasional cherry or plum, and scarcely an apple or pear tree which has put forth blossoms. For this reason there has as yet been little anxiety concerning the fruit crop, and as there is yet plenty of time for the planting of corn and other crops, the outlook is by no means as discouraging as it might be.

Prophets of evil fortune in weather there always are, and some of them draw their predictions in the autumn from the thickness of bark on the shag-bark hickory, the abundance of hush on the yellow corn, the thickness of fur on woodchuck or muskrat or the date on which the hibernating creatures "hole up." In the winter they watch the skies of Cambria and "conside the ground-hog, how he sleeps or comes awake." In the spring they note the direction of winds in the final days of March; and just now they are talking of sun-spots and their eleven year periods, or even of the year 1916, which was the year without summer in New England.

As for this whole list of signs of sequoia, it is notable only as showing how often predictions do not come true. In fact, as forgetful of good fortune as is the run of humanity, there are few who in the midst of pleasant and prosperous years will recall the dire prognostications which often have preceded them; but if once in a dog's age it comes about that the soothsayer prophet guessed right, he and his friends will keep on telling about it for years on years.

"Pay, or Ruhr stays French!" is what Premier Poincaré is saying these days to the German government at Berlin. It was emphasized by him in a speech at Commercy that, standing beside a monument erected in honor of 227 men killed in the war, all of whom he had known, when he said: "We are in the Ruhr. So long as Germany does not pay, she will not get us out." This is also the decision of Belgium, but Ex-Premier Lloyd George, apparently with the approval of England generally, says that France is ungrateful to England, whom she again might need. To this Poincaré replies that while we remain eternally grateful to all peoples who came to the support of our invaded country, the same gratitude is due to us from our compatriots in arms. The dead, of whom the French were the most numerous, barred the road of the Germans to Paris; but it also barred that to Calais and London.

The Large Garden.
The gardener who has plenty of land at his disposal may well scorn the "fussy" ways of the small garden man. He will do well to have long straight rows spaced far enough apart for horse cultivation, or at least for easy wheelbarrow work and he need give little attention to the conservation of space by intercropping and succession cropping. Broadly speaking, the same distinction holds between European and American farming—one seeks the greatest possible production from a given area, the other maximum production from a given amount of time and labor.—"Gardener."

THE GUIDE POST—
BY HENRY VANDYKELearn By the World's Experience
Let them not turn again to folly.—
PA. 85-8.

Why suffer twice to learn the same lesson?

Communism, agrarianism, proletarianism, anarchism, have all had their day, and it was a bad day—in Athens and Sparta and Rome and Jerusalem and Paris.

Why give them another day?

The divine right of kings and capitalists to impose their will upon their fellow men has been tested many times and has always failed to make good before the throne of Eternal Wisdom and Righteousness.

Why ask us to return to these old discredited theories?

They are not really guide-posts.

They are signs of "no thoroughfare."

Give us something really new, genuine.

There are many better ways of co-operating between the "haves" and the "have-nots."

Doesn't some better mode of helping the many to work, and of restraining the other and indolent from thieving and profiteering.

That is what we need, as surely as two and two make four.

AMERICAN LEGION NOTES

Local and National.

Four thousand silver replicas of the French poppy will be placed on sale to the public next week by Oneonta post, American Legion, in accordance with its custom preceding each Memorial day. Proceeds of the poppy sales will go to the local post's fund for aiding the sick and disabled veterans of Oneonta and vicinity and to the Veterans' Mountain camp to be opened by the state department at Tupper lake.

A meeting of the Woman's auxiliary to Oneonta post will be held Friday evening, May 15, at 8 o'clock, at the Community house. Arnold Hopkins, chairman of the post committee on poppy sales, will be the principal speaker at the meeting.

Approximately \$150 for the post's building fund was cleared at the dance held last Friday evening at the armory.

A few contributions by citizens in addition to the post's appropriation of \$10 have been received for the Graves Endowment Fund by Commander Harvey Backett of Oneonta post and forwarded by him to National headquarters of the legion. A goal of \$100,000 is sought before Memorial day that the 20,000 graves of American World war dead in Europe may be decorated every Memorial day.

Legion posts in all communities will assist 10,000 World war veterans, now taking government vocational training, to re-enter civil life within the next six months, according to an announcement by Lemuel Bolles, national adjutant of the American Legion.

The cornerstone of a home for orphans of the World war will be laid Memorial day near Independence, Kansas, by officers of the legion in that state. The legion will maintain the home.

Alvin Owsley, national commander of the American Legion, has been awarded the Order of Merit of the Union Nationale des Combattants, a French Veterans' organization composed of more than 1,000,000 ex-service men. This medal has been previously awarded to only 60 men.

Preparations for 250,000 visitors at the national convention of the American Legion in San Francisco, October 15 to 19, are being made by a committee of 500 prominent citizens of that city, the chairman of which is Major General Hunter Liggett, retired, who commanded the First American army in France.

Minnesota has begun an investigation of the condition of disabled ex-service men following charges made by the American Legion that 500 of the 1,774 tubercular veterans are fighting a losing battle with the disease because of the government's failure to build a hospital for tubercular World war fighters.

Knute Nelson was the "Grand Old Man" of the United States Senate. He deserved the title. He was the dead in years of that body and near the end in continuous service. He entered the Senate on March 4, 1893. Mr. Lodge had come over from the house of representatives two years earlier. Mr. Warren's continuous service dates also from March 4, 1895, but he had been a senator before that—from December 1, 1890, to March 4, 1893. Mr. Nelson and Mr. Warren were the only two members of the Senate who had served in the Union armies during the Civil War.—[New York Tribune.]

Housewives and Sugar.

For the American housewife, when she sets out to regulate her domestic expenditures and rebuke profligacy, is a very practical person. She simply quits buying and cuts down the regular allowance for articles of food that are unreasonably priced. It has been done before and if American women undertake to do it again they will furnish a demonstration of the power they wield.—[New York World.]

Behavior of the Sun.

In spite of these little eccentricities, the sun is a pretty wise old bird and can be trusted to do nothing permanently inconsistent with its health. If our invaluable friend, the cyclopedic, is right in saying that 17,000,000 years ago the earth "was of its present dimensions, a comparatively old body with a cool and living center," then the sun is surely old enough to know how to behave, and it can't be said that observations covering fifteen months make very large gaps in its biography.—[New York Times.]

Reported Panic Among the Soviets.

Special newspaper correspondents sent to Russia have got back to Polish and German cities where they can file uncensored articles to their newspapers. They show chaotic conditions in Russia because of the panic which has seized the Reds due to the impending death of Lenin.

The correspondent of the New York Herald says the Communists, lacking a head, are now at loggerheads and their party may disintegrate as a result of internal trouble.

The same writer calls that the fall of the Soviet, now regarded as possible, will probably be attended by murder and acts of savagery which will startle civilization.

It is always possible, however, that another man will be found possessing some of Lenin's genius for leading men and holding them in line. There is no one in sight who seems to have those qualities but in a country like Russia of today many things are possible.

The world in general is hoping that the end of Russia's Soviet regime is near and that a strong, safe and moral government will be erected on its ruins.—[International Republican.]

Doesn't some better mode of helping the many to work, and of restraining the other and indolent from thieving and profiteering.

That is what we need, as surely as two and two make four.

IN HONOR OF MOTHERHOOD

Gifts to Mrs. Martin, an Expectant Mother, Made in Honor of Motherhood Will Aid in Starting the Fund to \$2,000.

Various newspapers reaching this office yesterday contained reports of gifts to worthy causes made the previous day in honor of Motherhood, notable being one of \$25,000 made by George F. Johnson that a new church at West Endicott might be dedicated free of debt. Many Star readers were unable to send flowers to a living mother or to contribute to any worthy cause in honor of Motherhood. The Harold Matties fund affords an excellent opportunity to all such to make a contribution to a most worthy cause and do it for the relief of an expectant mother and in the name of the Mother of the land.

The fund from Otsego county now lacks a little less than \$150 to make it \$2,000 and it would seem that there must be 20 readers who have not yet made a donation who would like to do honor to mother's memory by making a contribution of at least \$5 in her honor to assist this expectant mother. The Star hopes that this will be the case, although assuring all that gifts of a less amount will also aid in bringing the total to the desired goal.

Since the last report made on Saturday Morris residents have forwarded \$18 through Harrison Cossart, president of that village, and others have made contributions making the total to be reported in this issue \$63. In this amount is included \$10 from Hon. and Mrs. Frank M. Smith of Springfield Center. This brings the grand total received at Oneonta to \$1,853.42.

Following are the contributors to the fund since the last report was published:

Hon. and Mrs. Frank M. Smith, Springfield Center \$19.00
Dr. Arthur W. Cutler 5.00
Wm. M. Hakes, Gilbertsville 5.00
Lee H. Starr, Morris 2.00

Dr. H. L. Crutten, Cooperstown 5.00

GIANT MANAGER ARRIVES

Bridwell Regards Outlook as Bright for Very Successful Baseball Season.

Looking Hale and Healthy and with the baseball fever running free in his veins, Al Bridwell, manager of the Oneonta Giants last year and this, arrived in the city yesterday with his family from Portsmouth, Ohio, his winter home. Al is eager for action at Neahwa park and is confident that the men whom he has picked for this year's team will constitute the best outfit that has ever represented Oneonta on the diamond.

Al stated last evening that although handicapped to a certain extent by salary limitations he had collected together a bunch of men with admirable records. The men will report on Sunday next and in the following day Al plans to start workouts.

That Carroll will return is a possibility, Bridwell stated. Carroll, one of the best pitchers who ever twirled on a local diamond, has told Al that he will have first claim on his services if he decided to play ball this summer. Bridwell regards his pitching staff as a likely looking outfit. Scanlon, Old Reliable, is a thoroughly dependable man. Lefty Davis, Bridwell regards as a man who can be developed into a pitcher of the first calibre. McAuliffe, an acquisition from Kingston, is the man who, pitching for the Colonials, beat Oneonta in an 11-inning game last year. Boase is a man with a good record and McKeon a promising youngster. In

speaking of Alexander, Giant first sacker last year, Bridwell said that he had a high opinion of his ability, but that he regarded Watkins, whom he has signed for this year, as a better all-around player.

—The psychology of audience singing, Mr. Wilson says, lies not only in leading your singers but in carrying the theme of the song with the motions of the arms and body. It is the most natural thing in the world to vent our expressions and feelings in song and the expert community singer can usually sway his audience to the mood that he desires by his own actions and method of singing the desired selection.

The large audience also enjoyed the feature photo-play, Brass, which is to be the offering at the Palace for Tuesday and Wednesday.

Henry Clapper Drives His Machine Into Two Cars and the Front of a Building—Intoxicated, the Answer.

Henry Clapper, 26, of Chicago, got a bit tooreckless with his automobile on Wall street late yesterday afternoon and as a result is in the city jail awaiting an opportunity to explain to the court of Justice Huntington this morning how he happened to be driving a car while in an intoxicated condition. Clapper smashed into two automobiles and one building, one after the other, not a bad record for but a few minutes work.

Clapper came to grief first in front of Green's garage. A Ford car was standing there and Clapper, glancing it, ripping off a hub cap on each machine. A hub cap meant nothing to Clapper—he was out for big game—so up the street he went a few feet and into the front of the building housing Thurlow Smith's vulcanizing works he crashed. The car put a noticeable dent in the front of the wooden structure, bounded off and careened across the street into the side of a new Essex coach belonging to Frank H. Monroe, ripping off a fender and otherwise damaging the machine. Officer Terrell happened along at the moment and it did not take him long to discover that the man was intoxicated. Clapper was marched posthaste to police headquarters, where he was locked up.

FIFTY YEARS IN MINISTRY

Methodist Social Union of Philadelphia Celebrate Bishop Berry's Completion of Half Century of Service.

(Contributed.)

One of the most delightful meetings in recent years was held at the Methodist Social Union of Philadelphia Thursday evening, when more than six hundred ministers and laymen and their wives met in the Bellevue Stratford to greet Bishop and Mrs. Berry in celebration of the fifty years service in the Methodist ministry of this honored Bishop.

In this company were representatives from the New Jersey, Philadelphia and Wyoming conferences, from various denominations of the city and prominent friends of the bishop and his wife from various other portions of the church. Those present were a striking evidence of the high place the bishop and his most estimable wife have won for themselves in the life of the church, and the state and the nation.

After a delightful social hour of felicitations and greetings, the large company repaired to the spacious banquet hall to continue the enjoyment of the occasion. The officers of the Social Union had done their utmost to provide the best possible setting. Philadelphia's best singers and musicians added the very finest in instrument and voice. The decorations were beautiful and the addresses were held to match.

C. D. Antman introduced the following speakers: Rev. Dr. W. B. Jennings, president of the Inter-Church Federation of Philadelphia; U. S. Senator Royal S. Copeland of New York; Rev. Dr. Frank H. Lynch of Philadelphia, and Judge Harold B. Wells of New Jersey.

Letters of greeting were read from U. S. Senator Pepper, from Governor Roosevelt, from the secretary of the Board of Bishops, and from the surviving members of those who were elected to the episcopacy the same year as Bishop Berry.

After spirited enthusiastic singing, Ex-Governor Stokes, of Trenton, N. J., was introduced, and at the close of a most happy address, in which he endeavored to express the love and appreciation of the vast host of the bishop's friends within the Philadelphia area, he presented the Bishop and Mrs. Berry a check for \$12,000, expressing the hope of a multitude that at the close of five more years as chief minister of the Methodists of these conference, Bishop and Mrs. Berry might be spared many years to live among us here in honored and brotherly counsel and service.

In fitting words and with restrained emotion Bishop Berry accepted these many tokens of affection for himself and wife and expressed the hope that the remainder of their lives might be spent in service and love among their friends here.

A united Methodism through these representatives honored their bishop and pledged loyal support of the work marked out by his leadership.

The Minister's Wife's New Bonnet.

"The Minister's Wife's New Bonnet" is the name of the musical play which the young people of the First Baptist church will present in the dining room of the church this and Wednesday evenings, commencing at

7:30 p.m. The ladies of the Sewing circle, the Improvement committee, and the milliners have something to tell you, besides the musical play which promises to be very good.

Special Holliness Meeting.

Mr. and Mrs. Hitchcock of the Pentecostal association will conduct a special meeting at 42 Grove street this evening at 8 o'clock. The public is cordially invited to attend the meeting.

We wish to extend thanks to all friends and neighbors for their kind assistance and sympathy following the death of our dear husband and father, also for the beautiful flowers sent and to those who furnished cars for the funeral.

LUDLAM JURY SECURED

Plaintiff Gives Concise Story of the Accident in His Suit for \$200,000 Damages—Case May Be Finished Tuesday Night.

Concordia, May 14.—Selection of the jury to hear the thirty-thousand-dollar damage action of Doer K. Ludlam of Oneonta against the Pennsylvania Railroad company occupied several hours at the opening of the supreme court here today and not until late in the afternoon were all the jurors secured.

It is alleged by the plaintiff that the crossing where the accident occurred is a dangerous one owing to the presence of buildings which obstruct the view of individuals using the highway.

The defense will endeavor to show that the driver of the automobile in which Ludlam and his wife were riding at the time she sustained the fatal injury did not take the necessary precautions before proceeding across the tracks.

Miller and Matteo of Syracuse are the attorneys for the plaintiff and are being assisted by District Attorney N. D. Lapham of Geneva. Alex. S. Diven of Elmira is counsel for the defendant company.

Later this afternoon Mr. Ludlam took the stand and told in a straightforward manner the events leading up to the time the car was struck by the locomotive of the defendant and what happened afterward.

The case is expected to get into full motion Tuesday and will likely be finished by night. Supreme Court Justice Abraham L. Kellogg of Oneonta will be one of the principal witnesses for the plaintiff. Mrs. Ludlam having long been his stenographer and clerk.

ARREST FLORIDA SHERIFF
ON CHARGE OF PEONAGE

(By the Associated Press)

Tallahassee, Fla., May 14.—Federal warrants for the arrest of Sheriff J. R. Jones of Leon county, William Fisher, superintendent of the Putnam Lumber company at Cross City, and Walter Higginbotham, former sheriff here, in the lumber case were received yesterday by United States Marshal Miskler.

Institutions accompanying the warrants from United States District Attorney Culberson, in Pensacola, were to arrest the trio at once. Deputy Marshal Miskler indicated the arrests would be made today.

Sheriff Jones was indicted on three counts, charging peonage, and Fisher and Higginbotham for conspiracy to kidnap. The charges involve the transfer of Ned Thompson, 64 year old negro, to the Putnam Lumber camp without trial.

CRUSHED ON ROLLER COASTER

Albany, May 14.—William Eckslorn, Baltimore, Md., was crushed to death beneath a roller coaster train at an amusement park near here Sunday afternoon. Wm. O'Neal of Hemscher, who was with Eckslorn in the front seat of the first car, jumped to the path beside the track and signaled the starter to stop the train. It was found necessary to lift the cars to release the body.

O'Neal said he did not know whether Eckslorn jumped or was standing up and fell out as the train rounded a curve.

SCISSORS IN ABDOMEN.

Woman Had Carried Them For Two Years Following an Operation.

Two years ago Mrs. William J. Smith of Savannah was operated upon for a removal of a tumor. At Great Long Island last week she was again operated upon, this time for the removal of a second tumor, apparently in her body during the first operation.

Mrs. Smith, who is under the care of Dr. William L. Walker, a few days after she left the operating room complained of slight pains in her abdomen. The abdominal gradually became worse and every effort is made to determine the cause. Through the advice of Dr. W. A. Davis of Savannah Mrs. Smith resorted to X-ray photography, and the results of the X-ray show that the wound caused by the first operation. The instrument was removed with great difficulty.

At the hospital it was reported last night her condition had greatly improved, and complete recovery is expected. (Syracuse Post Standard)

Plan Mothers' Memorial.

Philadelphia, May 13.—The building of a permanent mothers' monument at Washington is the goal announced by the Mothers' Day International Association, of which Miss Anna Jarvis of this city is founder and president.

Miss Jarvis quotes from Abraham Lincoln, "All I care for ever hope to do is to add to my angel mother," and continues: "The Lincoln movement honors the great emancipator. Should not his mother, as well as every mother in this country, be honored in some equal measure?"

Prosperous Delaware Banks.

Deposits in the seventeen national banks in Delaware county reached a new high peak on April 3, according to a compilation of the reports of the institutions made to the controller of the currency on that date. Total deposits amounted to \$11,257,197.

This compares with \$10,929,146 on Dec. 29, 1922, and \$10,759,182 on Sept. 15, 1922.

Deposits also showed a corresponding expansion, amounting on April 3 to \$8,256,711, compared with \$8,094,507 on Dec. 29. On September 15 the loans of the county banks were \$7,359,341.

Making Punishment Fit the Crime.

The judges of the city of Utica have hit upon a new system of imposing fines, which is having a very salutary effect on reckless automobile drivers. A dollar a mile is charged those who exceed the limit set by the city ordinance. Thus, if a driver is going 25 miles an hour, if he goes 45 miles per privilege; if he goes 45 miles per hour, it costs him \$20 for the fun.

Actor A. Rickard, son of Mr. and Mrs. M. B. Rickard of Cobleskill, ended a 1,000-mile journey in a plane from Houston, Texas, on Tuesday, when he landed at the fair grounds in the former place. He left Houston April 5 and had stopped at many places, carrying passengers en route.

The Rural cemetery at Cobleskill now has nearly \$18,000 well invested in a permanent lot-keeping fund.

Mr. Arthur Brown has begun his campaign against the Middleburgh and Schoharie Railroad company, on account of the death of his husband on the bridge street crossing in Schoharie last year. C. H. Proper is the attorney, damages being placed at \$15,000.

The private kindergarten, which has been so successfully managed during the past year by Mrs. Stanton France, will become part of the Cobleskill Free school beginning next fall, as voted by the Board of Education of the Cobleskill High school. Mrs. France and her able assistant, Miss Alfreda Goldring, will continue to have charge.

Opening games in the Schodack Valley baseball league will occur Saturday, May 26. Eight clubs make up the 1923 combination: Cobleskill, Richmond, Delanson, Howe Cave, Schodack, Middleburgh, Preston Hollow and West Middleburgh. Each team will be made up of home players.

Building of the new consolidated school building at Delanson has been postponed as a result of a vote at a school meeting held last week. The session lasted until 2 o'clock in the morning and was marked by much excitement. The proposition to appropriate an additional \$25,000 for the proposed new school building was defeated, only ten of the seventy-five voters present favoring it.

The legislature before adjournment last week voted \$95,000 for livestock hall, gymnasium and greenhouse in connection with the State School of Agriculture at Cobleskill.

Edgar D. Hallenbeck, who is employed as coach and physical director at the Deposit High school this year, will go to Hornell about July 1st, where he has secured a position as director of athletics at a salary of \$2,000.

George F. Bessiegue of Sharon Springs, aged 56 years, and James S. Hyne, of Cobleskill, aged 94 years, are two remarkably well preserved men of Schoharie county who can figure their life time at an age around the four score and ten mark. In addition to this they also enjoy the proud distinction of having voted twice for Abraham Lincoln for president of the United States, an honor unusually rare at this late day.

COW AS HONOR GUEST.

Champion Butter Producing Cow
Toasted in Glasses of Own Milk.

(By the Associated Press)

Albion, N. Y., May 14.—Led among a group of cattle in a brilliantly lighted hall and milked in the presence of 300 members of the British Royal Legion, the British association here, Agnes Sogis May Echo, champion butter-producing cow of the world, was toasted in tumbling glasses of her own milk here recently.

The famous cow was led into the compact hall with a silken rope by a pretty milk maid. She showed no signs of embarrassment or fright when a storm of applause greeted her and quickly chewed her cud while under the ministrations of her fair attendant, the streams of milk made over her to be seen.

Agnes Sogis May Echo is a five-year-old Holstein bred and owned by the Canadian government's experimental farm near here. She recently established a record of 36,886 pounds of milk in 265 days, yielding 1,853 pounds of butter. Her milk record has been beaten, but her butter record is far greater than any ever made before in the same period of time.

Values One Cent at \$10,000.

(By the Associated Press)

New York, May 14.—Junius Guttag, of this city, has a cent that he values at \$10,000.

"It is the first coin to bear the letters U. S.," says Mr. Guttag, "the first coin upon which the decimal system was based. The date of it is 1787. It is the size of a dime and is made of silver, worth about three cents."

Howland Wood, curator of the American Numismatic society, confirms Mr. Guttag's opinion of the rarity of the coin.
